James A. MacFee, Chief Engineer,
Fire Department,
Wellesley, Mass. 02181

Dear Mr. MacFee:

On behalf of the Wellesley Amateur Radio Society, I wish to thank you for your interest and support for the Society's ARRL Field Day Activities. You may be interested to know that the club station had 700 ham radio contacts during the Field Day period.

Particularly important is the development of amateur radio operators to provide a needed service in the event of a local or national emergency. The Socceity's Field Day activities did just this.

Your interest and assistance to the Society played an important part in the success of the Field Day program.

Yours very truly,

Walter E. Lenk
Secretary
Wellesley Amateur Radio Society
